To Whom It May Concern

Shazib Hussain (BCS183056) is currently doing BS Computer Science at Capital University of Science and Technology (CUST), Islamabad. He/She has completed 90 Credit hours in this course with flying colors. I have no doubt that the student has the skills, focus, and determination to perform well in further studies. I recommend this student without reservation for the internship. So far, he/she is a disciplined student and has never been involved in any activity that might have tarnished reputation as a student. I wish this student best of luck in every endeavor of life.
